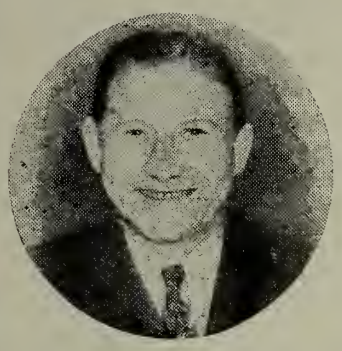
VOL. 4, NO. 38 JUNE 15, 1943 SERIAL NUMBER 90

"The Coin Machines Merry-Go-Round"

By Bill Gersh



ARCHITECTS, TOO.

This item appeared in The New York Times, Saturday, May 29th, "In the belief that concerted action is important in meeting problems of the uncertain days ahead, the American Institute of Architects moved today to bring all groups and members of the profession into one national organization.....The Institute adopted a resolution expressing the universal desire of the members for a single national association and calling on committees now at work on this project to draft a plan of unification.....The convention (meeting in Cincinnati) approved a proposal for revision of the set-up of the institute with the purpose of providing a regional director for each state. This would make it easier to take in state associations. A further resolution was designed to effect closer coordination between national and local committee activities."

Architects, too, see the need these days for a unified national body to guide their industry thru, not only this trying and difficult period, but after the war when it will prove most necessary. This is the plan as proposed by The Cash Box for a National Coin Machines Board of Trade with regional state directors so that each and every organization now in existence, regardless whether it is city or state in character, would nationally benefit. The need for such a Board of Trade grows hourly. It is coming to the point now where even the most skeptical have been acclaiming the plan. They, too, foresee the need for such an organization, especially the moment the war is over and many new products and plans are presented to the trade and when a huge influx of new blood is expected.

To carefully protect and correctly guide those men now engaged in this industry is a big job. Yet these men need some organization, completely representative of them, that will be able to place all important matters before them thru their state and city regional directors so that they will know just what is being done to help them. The need for a National Coin Machines Board of Trade will continue to grow. The men themselves have to also realize the need for this national body. But, until cooperation is completely and wholeheartedly forthcoming by all those engaged in this industry who can foresee its need, there will be no National Coin Machines Board of Trade to guide the interests of the firms in this business during the balance of this war period and into and thru the hectic post-war era.

ARCADE SEASON

With Decoration Day the complete arcade season gets under way again. From now until Labor Day the seasonal arcade will be attempting in every possible fashion to earn enough to pay its taxes and to also make a profit. Even the all-year-'round arcade seems to really get into swing with Decoration Day, tho a great many of these spots insist that Decoration Day means very little to them.

Maybe we're old fashioned. But it seems to us, that thruout the country the public have become accustomed to seeing the arcades bloom forth in all their glory when Decoration Day rolled around. From thenceforth the public became gradually accustomed of an evening to drop into the Penny Arcade and play some of the machines there, look thru some of the pictures, try out some of the athletic equipment and after spending a few nickels and a lot of pennies depart completely satisfied that it had made part of its yearly contribution to the Fun Spot on the Boardwalk.

It's hard to overcome habit. The public's habit of patronizing arcade with the Decoration Day holiday as the inducement and the continued patronizing of these spots from thenceforth until Labor Day always seems to go hand in hand with cotton candy, colored ices and other concoctions that pop up regularly at this time of the year.

The arcade season of '43 is looked upon by many as the possible all-time record setter for this division of the industry. The arcade season of '42 will never be forgotten for it lifted many an arcade man into financial security. This time, the arcade owner believes, he will earn a great deal more of the "foldin' green" if all goes along with him as it should. We certainly hope that this '43 season will be everything the arcade man looks forward to its being. And we are of the belief that the odds are more than 10 to 1 with him that this is the year.

"The Coin Machines Merry-Go-Round"

TAXES AND COMMISSIONS

Thruout the country there has been a sudden awakening to the fact that the coming Federal tax (July 1st) of $100.00 per year per pinball machine (where the free plays are redeemed for cash or merchandise) and $10.00 per year where they are not redeemed, seems to be excessive. Thru the energetic efforts of Samuel (Curley) Robinson of the A.O.L.A.C. (Associated Operators of Los Angeles County, Inc.) this has become national in scope. "Curley" is trying hard to get all the nation's pinball operators, jobbers, distributors and manufacturers back of this movement to help arrange for the license to be a straight $10.00 per year on the premise that regardless of what is done with the free plays the pinball machine is not to be classified with equipment of much greater earning power that the Federal government has seen fit to also tax $100.00 per year. "Curley" explains that he has nothing against this other equipment. He may and then again may not use it for a comparative basis for tax revision consideration. His methods in attempting to get the trade back of him, and also his work in this behalf to benefit all of the nation's pinball men, is extremely commendable.

An announcement has just come out of Washington that $45 Billions will be needed this year to prosecute the war. That's more money than anyone ever dreamed a war would cost this nation per year. This money is not only necessary for helping to win the war but also for assuring us our American way of life. With this thought in mind the Congress of these United States has just agreed to a pay-as-you-go tax plan which is actually increasing present income taxation according to experts by about 16% for the two year period which this plan engenders. All this points to the fact that more and still more money is being desperately sought by the nation's chosen leaders.

Washington's leaders know and expect that the general public as well as all businesses will suffer. But, there are thousands of men dying. And even more intense suffering is to be expected. To defeat the possibility of further inflation economic experts are for siphoning more money off the top of industry as well as out of the pockets of labor. It seems unwise at this time to puttaxes in the limelight. There is also always the fear present that certain politicos will seize upon this as an opportunity to again glory in the front page. Really good and educational explanations will have to be made to the Tax Grievances Committee of the greater amount of revenue the Federal government can expect if the tax is a straight $10. per year and not a possible $100. per year.

The one logical answer is the 30% commission basis which we proposed many, many months ago. This should be put into effect immediately. Leaders have agreed with us that the average location deserves no more than 30% commission. Good locations can be continued on a 50% commission basis because they bring in enough to make it worthwhile to continue this commission. But the average spot, with the present increased servicing overhead, labor on the rise and hard to get, with all other expenses to meet, and with the possibility of paying $100. per year Federal license tax, does not pay when operated on the old 50-50 basis. A 30-70 basis with the 70% going to the operator will prove profitable.

ASCAP AGAIN

The American Society of Composers, Authors & Publishers filed two lawsuits in Federal Court in an effort to collect royalties for the use of music in automatic phonos. The suits were brought on behalf of M. Witmark & Sons and Edwin H. Morris & Co. both music publishers against two bars, the New Westport Cafe and Donohue's in New York City. Ascap contends that use of copyright music in an automatic phono infringes the copyright unless royalties are paid, and will bring similar suits in other Federal districts in an attempt to bring the matter before the Supreme Court.

There it goes once again. For sometime now music men have satback and taken it easy and tried to calm fellow coinmen in the amusement divisions of the field. The music man did not believe that he could be made to suffer. Well, Jimmy Petrillo came along and started to work out on him in a big way and it looks, even tho we are being told that L'Affaire Petrillo will be settled very, very soon, that "Little Caesar" is going to win what he wants to get. Now Ascap comes along and revives an old gag about copyright music paying royalties.

The more open publicity a coin machine gets, the sooner someone wants to cut in on it or hurt it. That's why the very first policy The Cash Box established was to be a "confidential" weekly for this trade and this trade alone. This industry should now be sufficiently advanced not to seek the kind of outside news publicity for itself which becomes a boomerang each time words or figures are placed on paper. The sort of thing that gets into the hands of officials, politicos and the public generally always hurts. Especially when it is guided by those who have no understanding of the business itself and its many mystical requirements.

"The Coin Machines Merry-Go-Round"

WAR WORK

In this past week's (June 8) issue we gave some space to the statements of one of our leaders who appealed to all the trade to plunge deeper into the war effort - with much more than the purchase of war bonds. The article had just gone to press when we learned of a New Jersey jobber who had given up most of the space in his present quarters to war work. Very simple work, just winding spools of wire. He has already purchased three automatic winders and now has been awarded a contract for 25,000 spools because of the excellence of his work.

We also know of a Brooklyn jobber and an Indianapolis operator who are also doing war work on this small scale. We know of coinmen who are for the first time working their own and others farms to help with food production. We know of coinmen who have invested money in farms and in small war plants and are keeping these at work to help the war effort in every possible way.

We believe that more of the men engaged in this industry can plunge into the war effort more wholeheartedly than they have. And if they will, they will also find that not only will this reflect with due credit upon all this industry, but will help win this war so much faster so that they once again can get back into normal action.

There are many great and important jobs awaiting the men in this business in the war effort. It is the hope of The Cash Box that it will be able to publish, in weeks to come, Honorable Mentions for hundreds of our subscribers who will plunge with everything they have on the ball into the war effort and thereby give their full bit to Uncle Sam.

HONORABLE MENTION

One of the great pleasures we derive from publishing The Cash Box is the awarding of our Honorable Mention to those who do something to benefit the entire industry and reflect upon it with credit and honor. This week we are pleased to give Honorable Mentions to:

John Watling of Watling Manufacturing Company, Chicago, Ill., for winning the Army & Navy "E" for his plant's war work.

To Peter Hagedoorn of Jersey Specialty Co., Singac, N.J., for the fact that Pete has set aside the larger part of his place and is now doing war work and has just won an impressive Army contract.

To Harry Williams and Lyn Durant of United Manufacturing Co., Chicago, for the marvelous improvement they made in one item to help the war effort, and which they are now producing in large quantities.

To Ray T. Moloney and George D. Moloney of Bally Manufacturing Co., Chicago, for the many great improvements and advancements which they have presented in their war work and which has won them much praise.

To Al. Rodstein of Arco Sales Co., Philadelphia, Pa. for the volunteer guard work he is doing.

PAT-ON-THE-BACK DEPT.

This week four letters from four widely separated parts of the county are certain to prove interesting to all of our subscribers.

The first letter is from Leo Fiske of Fisco Sales Co., Haverhill, Mass., who writes, "Any more 'pats-on-the-back' from me and I'll be accused of wearing a red tie. I can't help giving credit where credit is due, so here goes. Thanks to you we have received our deposit back and our account is enriched to that extent. Today, one hour after we received our copy of The Cash Box, we were completely sold out of the merchandise advertised in the current issue. In other words, it is such a hot advertising medium that our stuff is sold even before we realize the ad is run. For such results we say, 'Praise be unto you. You are all powerful.' Keep up the good work."

The second letter came from Ed. Heath of Norwood Music Co.,Norwood, Ga.,who writes, "My only reason for subscribing for a quarter year is the liklihood of being called to the Army in a few weeks.Otherwise it would be for a year. Your publication sure gets results and I boost it in every way I can."

The third letter came from B. Edw. Krueger of Krueger & Meyer, San Antonio,Texas, who writes,"We have contracted with Sam May Co. for the exclusive sales and advertising rights for our anti-cheat attachments,and wish to carry an ad with you each week,as your paper has proven to have real drawing power. When I say drawing power,I mean that letters do not contain requests for more information,but they enclose checks for our attachments.Several telegrams from the West Coast attest to the confidence your readers have in you."

The fourth letter from our old friend Carl Trippe of Ideal Novelty Co., St.Louis, Mo., who writes, "We are so short of mechanics that when we advertise,especially in The Cash Box, we get so many orders that we cannot get the equipment thru our shop."

Odd Coins

By Joe Orleck

A (1943) COPYRIGHTED FEATURE OF "THE CASH BOX" 381 FOURTH AVE., NEW YORK

This is your last week to send along your ads for our First Anniversary. It's going to be the most wonderful issue ever published in the Coin Machines Industry. Just wait 'til you see it.

However, there's still plenty of action right now....HYMIE ZORKINSKY, H.Z.Vending and Sales Co., Omaha, Nebr. offers a special in pins....BILL BETZ, W. B. HANNA DISTRIBUTING COMPANY
217-219 ELIZABETH STREET UTICA, N.Y.

*QUALITY *HIGH CLASS *LIKE NEW *VERY CLEAN
*GUARANTEED *RECONDITIONED *MECHANICALLY PERFECT

A lot of beautiful descriptive adjectives used by thousands to describe their wares.
So generally used as to become meaningless.
Due to war conditions, manufacturers' identities to their products have been dropped in most cases.
Since practically all equipment now being purchased is used, a machine is only as good as the firm that sells it.

SO WE WILL JUST SAY "A SEIDEN MACHINE"

SEIDEN DISTRIBUTING COMPANY
1230 BROADWAY (Phone: 4-2109) ALBANY 4, NEWYORK

IMPORTANT

The Confidential Price Lists are to be read as follows: First price listed is lowest price for the week; Second price listed is highest price for the week; Where only oneprice appears this should be considered lowest price.

Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter The Confidential Price Lists can only feature the market prices as they are quoted. The Confidential Price Lists act exactly the same as the market quotation board at the Stock Exchange—posting the prices exactly as they are quoted for each week, regardless of how much they may seem to be out of line. Some machine prices do not change for months. The Confidential Price Lists, rather than show no price for the week, retain the last known quotations for such equipment so that the subscriber at least has the last known quoted prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth $150.00 whereas someone on the East Coast may think it worth but $75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. The Confidential Price Lists report each quotation exactly as it is made and depend on the subscriber to make average price adjustment to fit the peculiarities of his own territory.

CODE

CHECK THIS CODE CAREFULLY. BECOME ACQUAINTED WITH EACH ONE OF THE CODE NUMBERS AND WHAT THEY SIGNIFY. THESE CODE NUMBERS APPEAR IN FRONT OF THE NAME OF EACH MACHINE.

1—Means price went up.
2—Means price went down.
3—Means this machine just added to list.
4—Means prices went up and down same week.
5—Means prices remained same as in past week's issue.
6—Means no prices quoted for this machine this week.
7—Means no prices quoted for this machine for past two weeks.
8—Means no prices quoted for this machine for past three weeks.
9—Means no prices quoted for this machine for past four weeks or longer.
